PERSONAL SUMMARY

With over 3 years in web development and graphic designs, I am a web professional with the ability to capture the client's vision, bring the design elements to life, and ultimately create a website that appeals to consumers. My task involves both creative and technical abilities; therefore, as a top web designer I am experienced in many different disciplines such as web design and web development.

WORK EXPERIENCE

• **BeamsOne Ltd – Kigali, Rwanda**

Web Designer

June 2017 - Present

In charge of front end development, I am responsible for design and development of websites in need by our local and foreign customers. I am experienced with all stages of the development cycle for dynamic web projects. Well-versed in numerous programming languages including JavaScript, SQL, and C++. Strong background in project management and customer relations.

Key duties and responsibilities:

- Work with senior developer to manage large, complex design projects for corporate clients;
- Develop project concepts and maintain optimal workflow;
- Complete detailed programming and development tasks for front end public and internal websites as well as challenging back-end server code;
- Collaborate with designers to create clean interfaces and simple, intuitive interactions and experiences;
- Carry out quality assurance tests to discover errors and optimize usability;

• **Cimelec – Brazaville, Republic of Congo**

Technical Manager

October 2013 - May 2015

Responsible for overall operations and Technical activities of the company

- Managing the Technical team to achieve the overall objective of the company;
- Daily reporting on operation of the company;
- Performing Customer support.
